## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 6, 8-12, 14-29 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record fails to teach the mother mold comprising of the claimed organopolysiloxane.

### ***Restrictions***

3. Newly submitted claims 30-32 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The claimed inventions are related as apparatus and product made. The inventions in this relationship are distinct if either or both of the following can be shown: (1) that the apparatus as claimed is not an obvious apparatus for making the product and the apparatus can be used for making a different product or (2) that the product as claimed can be made by another and materially different apparatus (MPEP § 806.05(g)). In this case, the product is the mother mold and the newly submitted claims relate to the apparatus for forming the mother mold.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 30-32 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
